BALANCE HORMONES

The Endocrine System

Have you heard of the Mid Life Crisis? Where marriages fail and you lose all your assets and money to lawyers. Where men get prostate cancer and begin to lose their potency and women get cervical or breast cancer or at least bone density loss and both genders become loveless and stressed.

Did you know we each have a transceiver which sends and receives emotions... One dial on the transceiver is love and the other is stress.

When we are young the LOVE dial is turned up to the max and STRESS is turned down. We enjoy our private and working life...We have a sense of adventure. All that lasts until about the mid 30s when the love dial turns down to half and the stress dial turns up to about half...we cope but its not as good as we once felt and work seems to be a bit stressful. When we reach 45 the love is turned right down and the stress dial is turned up to the maximum...Work is very stressful and home life is just as bad and we nearly always blame the other person without realising that the Endocrine system is broken and needs fixing.

We need to avoid the dreaded mid life crisis by removing excess oestrogen.

This is a program to restore the Endocrine System of both genders and all ages.

Phytoestrogens or plant Oestrogen behave in the same way as human Oestrogen and excessive amounts lead to rapid health deterioration.

The following sources of Oestrogen that should be avoided at all costs because they are instrumental in promoting damage to the Endocrine system and includes premature aging.

Recommend Google search 'Endocrine system'.

Soy milk - 1 litre contains 35 milligrams of Phyto Oestrogen... This is equal to 10 contraceptive pills per litre. Phytoestrogen in Soy is named 'Isoflavins'.

www.cwshealing.com

Flax seeds and oil - Concentration is much higher than Soy milk and Soy oil - Phytoestrogen in Flax is called 'Lignans'.

Black Cohosh - Very high levels of Phytoestrogen. A product named '30 Plus' which contains this ingredient.

Sesame seeds are ok in small quantities but Tahini is very high in Phytoestrogens.

Sunflower seed oil is extremely high in phytoestrogen. Recommend Google search 'phytoestrogen side effects'.

Contraceptive pills on average contain 3.5mg per pill. Leads to sterility and strongly promotes cancer.

Recommend Google search 'pill side effects'.

HRT is synthetic or animal derived Oestrogen and studies have linked this to cancer.

Recommend Google search 'Oestrogen side effects'.

Bisphenal A or BPA is an endocrine poison. Endocrine is a name for the body's hormone system. BPA mimics Oestrogen and is found 'on the paper' like that used for fuel receipts and hard clear plastic ie those used for bottled water. Also in 'tooth fillings' that replaced 'Amalgam fillings'.

Recommend startpage.com search 'BPA side effects'.

PLASTIC IUD's are designed to yield synthetic hormones.

Recommend Google search 'plastic iud side effects'.

COPPER IUD's also seriously interfere with human biology.

Recommend Google search 'copper iud side effects'.

GREEN TEA has Phytoestrogen has high levels of Oestrogen and it should not be consumed as a precaution.

LICORICE has Phytoestrogen.

Ancient Magnesium Oil for transdermally, orally and via enema to remove calcification and oestrogen from the body.

Rockefeller medicine including medical doctors, gynecologists and endocrinologists almost without exception know nothing about balancing your hormones. This includes naturopaths and holistic or life extension doctors. You cannot achieve youthful health with calcification and inflammation and you must restore and maintain hormone levels throughout your life. You know of the Mid Life Crisis? This is where marriages fail and you lose all your assets and money to lawyers. Men get prostate cancer and lose potency and women get cervical or breast cancer or lose bone density and both genders become loveless and stressed and this leads to separation which is traumatic for both.

I have finally come up with the best, most inexpensive way to repair the entire body including the Endocrine.

You have to stop eating Sugar refined carbs as these cause inflammation and expansion of organs and distortion of the body shape.

Start the repair of the Endocrine by deleting sugars from your diet and using transdermal magnesium to decalcify the organs including skin, remineralisation of teeth and bones, removal of oestrogen's and BPA with Magnesium Oil and DMSO with wonderful rapid assistance using the biomat from www.cwshealing.com

CALCIFICATION

from pasteurised dairy

Pasteurised dairy is processed with heat above 70 degrees celsius and this causes hardened of calcium and destruction of Lacti bacilli. Neither can be metabolised for remineralisation. Instead it clogs up the arteries (called plaque) and renders organs inefficient and the clogged up the more you slow down.

Contemporary practitioners are not aware of this and hence the population is unable to reclaim their health to any great extent due to the unaddressed issue of calcification but nevertheless spend inordinate amounts of money on advice that is mostly not able to assist due to the

calcification, oestrogen and vaccine poisons load not being addressed appropriately.

Boiled dairy cheese, cream cheese, yoghurt and milk is heated between 70 and 95 degrees and becomes weaponised food. It should not exceed 37 degrees. Anyone who suffers cold extremities or are prone to having arms or legs that go to sleep, are experiencing the symptoms of calcification which is blocking the blood supply. Also destroys collagen and weighs down our skin and gradually turns off the production of hormones.

REMINERALISE BONES AND DECALCIFY ARTERIES AND ORGANS

Magnesium & DMSO

Fill a glass with pure water then add 10 mls of DMSO and 10 mls of Magnesium oil. Drink immediately. This will decalcify very similar to IV infusion. Cleans arteries, organs. Headaches that follow is detoxing of the brain. This improves brain functions substantially. Very effective because it is a penetrating detox that removes vaccine ingredients. A biomat from www.cwshealing.com will assist the complete detoxification of the body.

Magnesium on skin

Apply Magnesium Boron Sulphur oil drops all over the body and spread far and wide so that its not wet and then go to bed. There are 3 responses your skin will give you. The first is irritation. That means the cells are magnesium deficient. Should be gone after the third application. The second potential response is burning sensation. This is due to high levels of oestrogen or toxicity and will stop burning once the cells are clean. The third response is high level burning sensation which indicates the possibility of heavy metals interacting with the magnesium.

Aluminium from vaccines shows up as Ecsema and use Magnesium followed with drops of DMSO to carry the magnesium through the skin layers and clear the Ecsema. Strong burning will be experienced but its worth it knowing it will cure it. Ozonated Olive oil from fishpond.com is also very good for removing aluminium with DMSO.

For other areas that need repair apply Magnesium oil and then a few drops of DMSO and repeat this daily to work miracles under the skin.

Dr Caroline Dean

“Magnesium itself is a co-factor and responsible for the function of 325 enzymes; is an absolute requirement for calcium to be incorporated into bone; keeps toxic chemicals out of the brain; dances with calcium to create nerve impulses and muscle impulses; keeps muscles relaxed, including the heart and blood vessels, and triggers dozens of health conditions if it is deficient.

Magnesium oil is supersaturated magnesium chloride and because it's used topically it doesn't cause a laxative effect. And I find it really does work. I seem to have a very high requirement for magnesium and to get enough by mouth I can have a laxative reaction—but if I use magnesium oil, I only need to take half the amount of magnesium by mouth and therefore avoid loose stools.”

The best orthodox Doctors can do is prescribe Fosamax - the drug that many studies show will make ones bones brittle. Most know someone's Grandmother who fell and broke a hip/leg/ etc. and the disastrous outcome from that.

Magnesium prescribed by doctors in hospital is likely to be Magnesium Sulphate of which the latter is toxic to cells. Naturopaths tend to prescribe every other variation of Magnesium except the best, which is Magnesium Chloride.

Enema with Magnesium

Enema Colonics is something you can easily and safely do at home and therefore obviate the need for a colonoscopy with toxic soap absorption. The results from magnesium will amaze you. Buy an enema kit for about \$30 on ebay.

Fill up container with warm water. Add a half cap of Magnesium oil for cleaning stages. Lay on the right side and use olive oil to assist with insertion of the tube in to the rectum. Turn on and as the warm water flows in you will get the desire to eliminate. Resist as much as possible and then turn off the flow and eliminate when resistance is impossible. Repeat this procedure until you have cleaned out.

The final time add 1 table spoon of Bicarb and 10 to 20ml Mag oil per litre and after it enters, lay on the back and hold for 20 minutes which allows for the mag oil to work on cleaning the system. If you are unable to hold then use remainder to hold for remainder of time left. This will remove toxins and oestrogens from the large intestine and give you a new feeling of well being and energy improvements. Repeat a few days later and the key is to persevere.

DETOXIFY AND RESTORE

Biomat, Magnesium and DMSO

The Biomat fires infrared 6 to 8 inches into the body and creates negative ions at the rate of 1800 per cubic cm. They split the water into Hydrogen and Oxygen within normal cells purifying them and

restoring the respiration rate for increased electrical energy called ATP. When the Hydrogen and Oxygen is created within Cancer cells the process is called Oxidation and this kills the cancer cells.

In addition the Biomat keeps the blood clean with Hydrogen and Oxygen during detox programs like the following protocol with DMSO.

This DMSO protocol is equivalent to IV infusions in terms of decalcification ability and fundamental detoxification.

Method: Chew 2 mls of Magnesium Oil for a 5 minutes then a few minutes later drink a glass of pure water with up to 24 mls of 99% DMSO.

Any signs of nausea means the blood has become dirty.

Using the biomat is necessary to keep the blood clean and would be used to sleep on at night including after consuming DMSO.

DMSO can be consumed three times a day on empty stomach. This equals 72 mls a day. Should also stop taking dms0 1-2 days a week to allow the body to rest. If after a dose heart rate goes up, head is a bit light, or have diarrhoea then stop DMSO for the day and start again next day on smaller dose 3 times a day

Biomats are amazing because it sends infrared 6 to 8 inches into the body and creates negative ions that splits the water into oxygen and hydrogen that detoxes normal cells and in the case of cancer cells will oxidises and eliminates from the body.

Biomat mini will heal anyone of virtually any condition.

MAGICAL PRODUCT

Sleep on Command

This is the most incredible technology that super charges the production of Melatonin while you sleep. Also has a recovery mode which sends the earth frequency of 9.6 hertz to assist cells to reach optimum production of ATP (Adenosine Tri Phosphate) which means more electrical power. Has several sleep settings. For example Sleep 1 gets the Melatonin production going for 7 hours and then it switches into the recovery mode of 9.6 hertz. Truly amazing and would be beneficial to everyone.

Slow down the aging clock

NOW!

You're not getting younger...but you could be! It is well documented that free radicals and subsequently oxidative stress are the key components of aging. They debilitate body's ability to generate cellular energy at the mitochondrial level. EarthPulse™ tunes energy generation to produce more energy with less oxidative stress; the synergistic effects of which help fully detox and repair cells so you'll actually grow younger for the first several years, then slow the natural aging process to a crawl. EarthPulse Sleep on Command™ the world's only sleep, performance enhancement and anti-aging technology. Feel and perform a decade or two younger in 90 days or your money back.
